## EVERYONE'S A DESIGNER....

OR SO WE ARE TOLD, BUT IT REALLY IS EASY TO GET IN TOUCH WITH YOUR CREATIVE SIDE WITH YOU™ MODULAR FURNITURE FROM UTOPIA.

Using the individual elements from the collection, you build your own unique look. Go for a single, standalone piece or a combination positioned separately or linked to suit you.

Here, an asymmetrical layout in sophisticated Midnight Grey Gloss and Quantum Square sanitaryware has been chosen, featuring an interesting stepped arrangement.

Designer top tip: The space between and around modular units is vitally important for the overall effect, so don't be tempted to overcrowd your design.
