

style on tap

Once a mere functional necessity, taps now add the ultimate finishing touch to a beautiful bathroom. Utopia offers two stunning but very different contemporary styles.

Introduced to complement the YOU™ range of modular furniture, Paleta is the perfect minimalist choice, combining a beautiful curved and flattened spout with stylish cube-shaped taps.

Offering a different look, Amante is a chunky, single lever tap which comes with a choice of chrome or satin chrome interchangeable heads. This style is also available in a short projection version specifically for use with space-saving basins.

Both Paleta and Amante come in a variety of basin and bath options to suit all styles.
