

## UTOPIA EXTENDS QUANTUM SQUARE RANGE

With sanitaryware forming an increasingly significant part of its product portfolio, Utopia Bathroom Group is adding two important new options to its Quantum Square range: a semi-recessed basin and a back to wall pan. These strategic additions are expected to become key items in the range as they are designed to co-ordinate with the Utopia fitted furniture range. Both will feature in the new 2009 catalogue due for issue in early January.

Quantum Square was previewed at KBB 2008 where its contemporary design and sharp styling made it an immediate success. Designed to complement Utopia's fitted and modular furniture ranges, the range now comprises deck-mounted, semirecessed, cloakroom and standard basins with full or semi-pedestals and closecoupled, back to wall and wall hung WCs.

Helen Bray, marketing director, comments, "The stylish new semi-recessed basin and back to wall pan greatly extend the potential of this popular range. We are now able to offer a comprehensive collection of quality sanitaryware to complement our furniture."
